PO Box 245, Simondium, 7670

CK.NO: 2001/004061/23 VAT No: 427 026 1987

15 February 2025

REFERENCE: NICHOLAS DAVID WISHART

To Whom It May Concern,

Nicholas has worked under my supervision on an ad hoc basis since 2023 when his studies allowed.

His responsibilities included:

Overseeing the maintenance of the farm machinery including developing maintenance schedules and from time to time conducting the actual maintenance itself. He has shown a willingness to learn and 'get stuck in' whenever required. The machinery included the farm 300kW generator, 3 phase compost filling machines, 2 x 160kW water chillers, a 81Kw water heater as well as various other bits of agricultural equipment.

Nicholas has developed a mushroom growing control and data collection system that is now in use to help with the actual growing of mushrooms. This required a detailed analysis of the requirements of the growers and how their inputs effect the productivity of the farm. This is proving invaluable in maintaining competitive yields.

In addition to the above Nicholas showed a willingness to get involved and apply his analytical skill whenever fault finding was required to identify the cause of electrical and mechanical breakdowns when they occurred. His input proved helpful on multiple occasions.

Nicholas has proved himself to be reliable and easy to work with and I have no hesitation in recommending him to any prospective employer.

Kind regards

Alexander Greig
