

LETTER OF RECOMMENDATION FOR NICHOLAS WISHART

To whom it may concern,

I hereby confirm that Nicholas Wishart was employed at Sinapi Biomedical in the capacity of Mechatronic Technician between July 2018 and December 2018.

Nick worked in the R&D department. His work included mechanical design and fabrication of production fixtures, test beds and other equipment. He also did machining using milling machines and lathes and assisted with sourcing and procurement of materials and equipment.

Nick showed an eagerness to learn and was dedicated in achieving his tasks. He added value from day one and was always willing to assist where needed. Nick is intelligent and could easily grasp the tasks required of him. He also showed the ability to work unsupervised. He slotted into the work environment easily and quickly formed part of the team.

We wish him all the best in his career and believe he will add great value to the company or entity that he works for or with.

Kind Regards,
Gabriel Bruwer

R&D and Engineering Manager, Sinapi Biomedical
